Sales gallery reflects developer's sophisticated new image

Bolton Studio is located in Taman Tasik Prima, Puchong.

SUBANG JAYA: Property developer Bolton Bhd recently launched its sales gallery in Taman Tasik Prima, Puchong.

The gallery, which is called Bolton Studio, features scale models of the latest properties on sale at the township.

Each model comes with a touch screen terminal which

potential buyers can use for a 3D walk-through.

This allows them to experience details such as the skyline facing their units of choice, floor layout and artists' impressions.

At the launch, attended by more than 1,000 visitors, Bolton executive director

Chan Wing Kwong said the gallery was a reflection of the company's new image following their rebranding exercise.

Details of the latest phase of Taman Tasik Prima's residential homes — three-storey Cascadia townhouses — were also unveiled.
